Extractive Industries Transparency Initiative Albania (EITI Albania)  
Multi-Stakeholder Group (EITI Albania MSG)  
Terms of Reference

Background

Initiative for Transparency in Extractive Industries - EITI (hereinafter EITI\textsuperscript{1}) is an international initiative. Its object is to develop and implement a mechanism in order to declare the income from the use of Natural Resources that come through the Extractive Industries and to publish these data in a comprehensive format to the public and to supervise them in order to enable the public to access information regarding income and public expenses, contributing in this way to a public debate and creating mechanisms for a good management of these incomes to the benefit of communities.

The EITI process can be further dimensioned and adapted to the current context of each implementing country, to meet the information needs of the stakeholders and the need to affect the sector with important reforms based on these data.

As defined in the EITI Standard Requirements, the EITI Standard Implementation requires effective oversight of the EITI process by all stakeholders. This is achieved through the establishment and operation of a Multi-Stakeholder Group (hereinafter MSG\textsuperscript{2}), which includes representatives of government, of the companies operating in this sector and the full, independent, active and effective role of the civil society participation, which commit to work together to develop and promote transparency and good governance of this sector.

On the new terms and the changing of the EITI Standard is necessary the review of the previous ToRs.

Objectives and Mission of EITI in Albania

The Decision of Council of Ministers No. 993 “For the organization and functioning of the National Secretariat of the Extractive Industries Transparency Initiative (EITI Albania), within the framework of the membership in the International Organization EITI International” and the efforts to institutionalize and implement reforms in the extractive industry sector in Albania, shows the seriousness of the Albanian government to ensure that extractive industries in Albania serve to the benefit of the Albanian people.

Greater transparency in the payment of taxes and fees to government by extractive industries, and the proper acknowledgement of such payments by government at all levels, is an essential condition for good governance of such industries to the benefit of the country and its citizens.
